## Technical Skills and Proficiencies:

HTML      CSS      JavaScript      jQuery      Bootstrap      Bulma      Trello  
Microsoft Office      Apple Pages Suite      Google Docs Editors Suite  
Adobe Creative Suite      Apple Final Cut Pro Suite

## Development Projects

### ***Investment Dashboard***

[matthewxgoad.github.io/investment-wizard/](https://matthewxgoad.github.io/investment-wizard/)

A one-page application will allow beginner users in the stock market to see a quick run down of the most important information for them to make an informed decision on whether they should invest their money in a certain stock. This was a collaboration with other students and uses data from AlphaVantage and Finnhub APIs.

### ***Weather Dashboard***

[matthewxgoad.github.io/weather-dashboard/](https://matthewxgoad.github.io/weather-dashboard/)

Another one-page application that pulls weather data from the OpenWeather api directed by user input city names. Displays current and forecasted temperatures, humidity, UV index, wind speed, and more.

### ***Password Generator***

[matthewxgoad.github.io/password-generator/](https://matthewxgoad.github.io/password-generator/)

A minimal and very useful application that generates a strong password based on user defined criteria like length and character types.

## Experience

### ***Production Manager, Production Coordinator, Food & Beverage Coordinator***

2020-present

Red Skyline Prod., Anvil 1893 Ent. (*Money Court*, CNBC; *Cover Me Up*, Netflix, *Musicology*, Quibi)
